

Manufacturer's Declaration

To Benelux:

Ginlong Solis approves the use of Solis inverters in Belgium, Luxembourg, the Netherlands with the maximum DC input power listed in the following table while all other limitations must be observed (current, voltage, etc.)

If the DC input power does not exceed the values listed below and the inverters are installed in these countries, this will not affect the warranty condition of the inverters.

Note: Maximum DC input power is defined under Standard Test Condition (STC)
